

# EVOLUTION RS-1000

**CLEANS  
BETTER  
& FASTER  
THAN ANY  
MITTER**

*And it doesn't  
use harsh and  
aggressive  
chemicals.*

The Evolution RS-1000 top brush is a clean, simple piece of equipment that can outperform any mitter. It cleans problem areas such as windshield eyebrows, front grills and upper rear window areas. The revolutionary Envirosoft 2<sup>nd</sup> Generation foam is what makes this brush work.

Its gentle, forgiving and high performance features allow the Evolution to be the most powerful piece of top cleaning equipment on the market today. Get Results. Get MacNeil.

**envirosoft** 2<sup>nd</sup>  
GENERATION  
"THE NEW WAY TO WASH"

**MACNEIL**  
GREAT IDEAS • GREAT RESULTS

### Product Options:

- Auto retract kit for pick-up truck detection
- Foam color selection – red or blue

### Technical Data:

#### Hydraulics

- 4.5 GPM (17 LPM)
- 400 PSI (27.5 BAR) min. pressure

#### Pneumatics

- 1/4" (6.35 MM) line
- 0.5 CFM (0.014 M/Min)
- 100 PSI (3 BAR) min. pressure

#### Water

- 3/4" (19 MM) line
- 40 PSI (3 BAR) min. pressure
- 2 GPM (7 LPM)

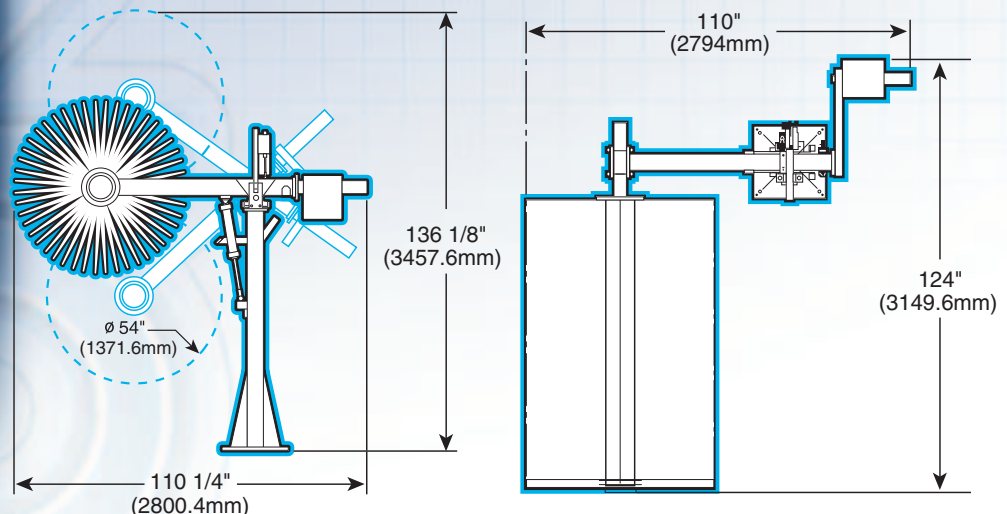

#### Electrical

- 24V AC, 1.8 A

The Evolution RS-1000 works well to tackle common cleaning problem areas. It is successful in removing front window 'eyebrows' and in cleaning the upper back windows of SUVs and mini vans.

It also works well on roof rack areas and back spoilers while being forgiving on vehicle extrusions such as antennas, grills, wipers and bug shields.

The Evolution is easy to install and requires very little maintenance. It is gentler and much quieter than a mitter, yet has more cleaning power. And because of its versatile cantilever design, the Evolution can be mounted on either side of the wash bay.
