

MACNEIL EXPRESSLANE

CONVEYOR SYSTEM

Drives CSI, Volumes and Revenues – Achieve Bottom-Line Results

MacNeil Conveyor vehicle wash systems are recognized around the globe for unsurpassed quality, which translates into many distinct bottom-line advantages, including reduced labor, maximum uptime, lower total cost of ownership and increased volumes. The MacNeil ExpressLane Conveyor system offers all these advantages in a package that's tailored to the specific needs of automotive dealers, fleet operators and rental agencies. A modular system that is readily adapted to your specific site and budget requirements, the ExpressLane Conveyor system ensures a superior clean, thanks to high-quality, low maintenance components.

UNSURPASSED THROUGHPUT AND A QUALITY WASH

> THE MACNEIL ADVANTAGE

- Ideal for high-volume sites requiring maximum throughput
- Higher line speeds contribute to profitability without sacrificing performance or vehicle protection
- Automated technology and time-saving features decrease or eliminate prep and finish work
- Superior designs and components lower operating, labor and maintenance costs and boost profitability
- Revolutionary top brush provides superior wash results over mitter systems
- Many optional upgrade products
- May be custom designed to meet dealer specific needs

> EQUIPMENT OVERVIEW

Modular design is highly adaptable to site and budget requirements.

Correlator features MacNeil's wheel safe entry system for easy and accurate entry

Conveyor is MacNeil's industry-leading RG440

Pre-soak arch applies water and chemicals to vehicle at start of wash

Top brush outperforms mitter systems in cleaning horizontal surfaces

SuperFlex wraparound brushes provide maximum cleaning power for vehicle front, sides and rear

Rocker panel brushes clean hard-to-reach lower sides

Quiet, electric or hydraulic brushes are fabricated with MacNeil Envirosoft foam: thicker, wedge-shaped fingers are gentler on vehicle extrusions

Rinse arch applies rinse water, waxes and drying agent, as specified

Drying system incorporates MacNeil's patented Tech 21 featuring three 10 HP fixed nozzle drying units and one Smart Nozzle dryer with multiple programmable positions

Wash Control Center integrates all wash components into one easy-to-use control unit

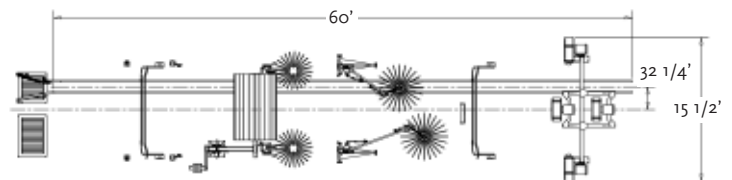

> TECHNICAL DATA
