

### **Designed to Perform From Start to Finish**

MacNeil Wash Systems provides carwashing solutions from start to finish. By earning a reputation as a supplier of top quality, low maintenance and value added car wash systems and components we offer our customers the best wash possible.

# THE MACNEIL ADVANTAGE – from start to finish

## Tunnels with a Difference

MacNeil Wash Systems offers a complete range of tunnel solutions from mini tunnels to full service packages. Each MacNeil system can be customized to meet customer and site-specific requirements by incorporating key, results-oriented products from start to finish.

### > RG440 CONVEYOR

- Quad air shocks for constant chain tension and no conveyor jamming
- Anti-jam on demand roller system prevents roller jamming
- Absence of ball bearings eliminates over-greasing and damaged seals
- Trap doors provide safe and simple operation
- Manual roller-up ensures continuous operation in the case of cylinder failure
- Interconnecting chain and roller design provide 52,000 lbs. of tensile strength
- Remote grease points guarantee ease of maintenance

### > SUPERFLEX WRAPAROUND

- Proven effective at high volumes
- Double dwell time on rear of vehicles
- Short shaft design
- Stainless steel manifolds
- Hydraulic brush clutching
- Gentle side pressure on mirrors and antennas
- License plate and rear wiper protection
- High speed control panel
- Optional long arm feature
- Available as free standing or mitter mounted
- Utilizes Envirosoft 2nd Generation foam

### > EVOLUTION RS1000 TOP BRUSH

- Cantilever design for mounting on either side of wash bay
- Available in hydraulic drive or electric drive versions
- Minimal space requirements
- Utilizes Envirosoft 2<sup>nd</sup> Generation foam
- Removes front window eyebrows and cleans upper back windows of SUVs and mini vans
- Forgiving of vehicle extrusions such as antennas, roof racks and bug shields
- Easy to install

### > ELIMINATOR FULL FORCE WHEEL CLEANER

- 16 high-pressure, stainless steel spray nozzles
- Hydraulic speed control supplied
- Following feature option
- Adjustable mounting brackets
- Stainless steel cover
- Minimal space requirements

### > TECH 21 ADVANCED DRYING SYSTEM

- Fiber optic nozzle synchronization
- Dries backs of vehicles and mirrors
- 155 mph air speed
- Programmable SMART Nozzle
- No conflicting airflow
- Dynamically balanced, welded steel fans produce high volume of airflow
- Steel reinforced molded plastic booster housings for greater safety and less noise
- 3800 CFM (107.6 CMM) rating

### > ENVIROSOFT 2ND GENERATION FOAM

- Available on all MacNeil side, top and wrap-around brushes
- Wedge shaped foam fingers permit high speeds without vehicle damage
- Stacked disc mounting configuration for easier maintenance
- Lightweight allows for quiet, smooth operation and less wear and tear
- Attractive appearance and eye catching colors

MacNeil Wash Systems was established in 1982 to provide turnkey solutions to the tunnel car wash industry. MacNeil products are engineered to provide operators with superior cleaning performance, reduced maintenance, increased production, maximum cost savings and equipment longevity.
