

# NEW

## Magnum Series

### Magnum Pro Drying System

# Setting Standards in Energy Efficient Drying

The NEW Magnum Pro Drying System offers “best of breed” drying in two systems that are proven to perform. It brings together the PowerLock’s unrivalled 30% energy-saving and noise reduction features, the advanced drying technology of Tech 21 Dryers, and visually striking designs to deliver high-performance at an affordable price.

#### **System I: 60hp drying system includes:**

- 4-15hp producers for best drying performance
- PowerLock Air Valves boost energy efficiency and reduce noise
- SMART nozzle improves rear drying
- Eye-catching system creates bold visual appeal to drive customer attention

#### **System II: 80hp drying system includes:**

- 4-15hp producers and 2-10hp producers for higher line speeds
- PowerLock Air Valves cut energy consumption and noise
- SMART nozzle enhances rear drying
- Dramatic visual appeal commands customer attention

**Get drying efficiency.
