ALL-IN-ONE WHEEL CLEANING SYSTEM BY MACNEIL

# “Finally, a wheel washer that actually works!”

— Joe Spray, Owner, Double Bubble Express Car Wash

“Like so many other operators, I have been disappointed and frustrated by wheel washers that look great but do not perform. That all changed when I watched our new **Wheel Boss from MacNeil** in action. I must admit that I was a little skeptical at first, but after watching the ‘Cam Style’ foam brush dig into the rims of my customers’ wheels, I was sold. It worked better than any other wheel cleaner I have ever seen, and the foam material is safe on wheels too. I knew I finally had a washer that did exactly what it was designed to do. In true MacNeil style, they engineered a wheel and tire solution that actually works. Without question, any operator that is serious about their car wash should take a closer look at the Wheel Boss.”

Dedication to research. World-class engineering. Unbeatable results. Simply put, we perfected the design to give a superior clean and make wheel washing dramatically more efficient. What else would you expect from MacNeil?

**Joe Spray** owns and operates Double Bubble Express Car Wash in Alabama. A long time operator with extensive experience in the industry, he owns and operates 5 sites in the Huntsville area.

**Get Clean Wheels. Get MacNeil.**
