

Success Story

N° 1854

Captain Dizzy's Car Wash, Marysville, WA

“MacNeil's equipment delivers. I'm impressed by its quality and appearance.”

— John Dziubala, Owner, Captain Dizzy's Car Wash

Immediate Returns

We've been in business for 11 years and recently switched from cloth equipment to MacNeil's foam system. We've already seen a significant return – MacNeil's equipment turns out cars much faster and with less prepping.

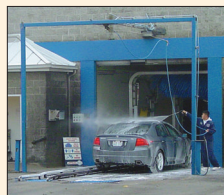

Proven Results

Based on our years of experience, it's easy to see that MacNeil's equipment is better than the other manufacturers – it's durable and easy to maintain.

Customer Friendly

MacNeil equipment makes our customers happy. The Envirosoft™ 2nd Generation foam is much quieter than the cloth we had before. Their top brush eliminates eyebrows on windshields and rear windows and the SuperFlex wraps and other brushes get into the nooks and crannies that other manufacturer's brushes don't reach.

MacNeil. Great ideas. Great results.

John Dziubala (better known as Captain Dizzy) soared from a high-flying career as an airline pilot to car wash success as the owner of Captain Dizzy's Car Wash in Marysville, Washington.

Get with a winner. Get MacNeil.
