

Success Story

N° 1629

Ronny's Car Wash, Milton, Florida

“MacNeil equipment is better built – it’s simply manufactured to a much higher standard.”

— Ron Scott, Owner, Ronny's Car Wash

Highest Performance

We looked at over 30 car wash sites – in Colorado, Ohio, Alabama and Florida – before deciding on MacNeil. Its strength and durability sold us. The MacNeil structures looked so much stronger and all their equipment is built to a higher standard than other manufacturers. MacNeil equipment stands the test of time and keeps on looking terrific.

High and Low Volume

Our express tunnel can handle up to 120 cars an hour and the MacNeil equipment is much quieter than any other car wash equipment I've seen. My customers really appreciate the quiet – it means a lot to them.

Labor UNintensive

Our 125-foot express tunnel with gated entry really cuts down on labor – and we still turn out an awesome product! We take care of our customers because if we don't, they won't be back.

MacNeil. Great ideas. Great results.

Ron Scott is the owner and operator of a very successful express tunnel in Milton, Florida – just east of Pensacola. In a small market, Ronny's Car Wash enjoys ever growing volumes thanks to the washing wizardry of MacNeil.

Get with a winner. Get MacNeil.
