

For Immediate Release

MACNEIL WASH SYSTEMS HAS RECORD YEAR

Barrie, Ontario, Canada - October 14, 2009 - In times when most manufacturers have little to report but reductions in orders, profits and people, a rare bright spot is MacNeil Wash Systems.

“We have just emerged from one of the best summers in recent memory” says MacNeil Vice President, Vince MacNeil. “We owe a lot to our distributors for delivering to us some excellent business opportunities in some very challenging market conditions.”

As well as the efforts of their distributor group, another secret of MacNeil’s recent growth is trading on some very important product successes. “We are really beginning to trade heavily on our reputation in the market” says Mr. MacNeil. “We’re known as a specialist in tunnel equipment that puts a lot of thought and design integrity into the products we make. With that reputation, in good times and bad, customers seek out the best they can buy....they can’t afford to make a mistake.”

MacNeil Wash Systems is one of the world’s premier manufacturers of conveyor car wash systems, with dealer representation in over 20 countries worldwide. The company designs and manufactures high-performance car wash systems for the tunnel car wash industry and for the automotive dealer, fleet and rental markets. MacNeil car wash systems integrate best-in-industry performance and operation standards for high ROI, superior customer satisfaction, and minimal maintenance. MacNeil equipment is backed by our commitment to service excellence and a comprehensive field distribution and support network that is second to none in capability and performance.
