

The Best in Automatic Car Wash Systems

FOR IMMEDIATE RELEASE

MACNEIL ANNOUNCES OPENING OF UNIQUE AMBULANCE WASH

Barrie, Ontario, Canada – November 9, 2011 – A one-of-a-kind ambulance wash, engineered and installed by MacNeil Wash Systems, is up and running. MacNeil was commissioned by the York Regional Emergency Medical Services to design a drive-through system that would meet the challenges of washing up to 200 city vehicles per day, ranging in size from sedans to heavy-duty, dual wheel ambulances.

“MacNeil capitalized on the strengths of our existing equipment and custom engineered it to fit the physical size, distinct profile, and dual wheels of the ambulances”, said Brad Laurier, Vice-President of Canadian Sales. “We re-designed our Top Brush and SuperFlex Wrap-Arounds to extend their reach in order to perform safely and efficiently. MacNeil is very proud to be involved with this project, and to be awarded the opportunity to provide a system that not only meets, but exceeds our customers expectations.”

About MacNeil Wash Systems

For close to 30 years MacNeil Wash Systems has provided superior carwash equipment to the tunnel car wash industry, automotive dealers, fleet and rental markets. Our turnkey systems, profit-boosting add-ons and cost-effective retrofits have been the envy of the industry, delivering a consistently superior clean with lower maintenance, higher throughput and greater revenue opportunity. Today, MacNeil equipment is more affordable than ever. Put us to the test.

Everyone wants a MacNeil – now everyone can have one.
