

GLOSS BOSS TIRE SHINE APPLICATOR

INCREASE REVENUE BY UP TO \$5,000 EVERY MONTH

Gloss Boss takes a better approach to messy, wasteful and costly chemical rub-on tire-shining systems. Its precision chemical-application system produces the shiniest tires with the lowest waste. Gloss Boss completely eliminates the need for labor, putting more money in your pocket.

Another Inspired Value-Add from MacNeil

Gloss Boss is an easy, revenue-generating add-on to your tunnel system or in-bay automatic. It evenly applies tire dressing as tires pass it, getting into all the hard-to-reach areas that other online applicators miss. By not using foam or cloth, our revolutionary feather-tipped applicator won't oversaturate and applies a precise amount of chemical to each tire to minimize chemical waste.

Retrofit-Ready

The Gloss Boss is easy to install and integrate into your new or existing operation. The simple height adjustment system means it's retrofit-ready, making it quick and easy to add this profit center to your existing car wash.

Why Choose Gloss Boss?

- Chemical-distribution system reduces waste with the lowest application cost
- Uses gentle pressure to provide complete coverage on tires of every size, with minimal wheel contact
- High-density, nylon, feather-tipped brush adapts to all tire sizes and never oversaturates, reducing chemical sling
- Provides a consistently rich and thorough application on every tire
- Rugged brush provides years of uninterrupted service with minimal maintenance
- Ideal for both tunnel and in-bay automatic car washes

Gloss Boss Tire Shine Applicator

What's Included:
