

# MCC TUNNEL CONTROLLER

## **PRECISION WASH CONTROL**

*The MCC Tunnel Control Center provides accurate wash control for every aspect of your system, from the application of chemicals to the precise timing of each wash component. Incorporating the newest technology, MacNeil's user-friendly MCC has all the features and benefits required to maximize the performance of your system.*

### **Customize critical wash control**

The web-enabled, user-friendly interface allows for easy wash configuration. Programming, reporting, management and troubleshooting are a click away with the remote access option. Preventative maintenance and reporting features mean less downtime. The 12-inch color LCD touch screen display is easy to use, and the controller can be programmed while the system is running.

## WHY CHOOSE THE MCC TUNNEL CONTROLLER?

- Built to UL/CSA specifications for safety and security
- Monitor your site from anywhere with remote access
- Tracks diagnostics, from chemical levels and usage to and water and air temperatures
- Alert system emails to warn of potential or current tunnel conditions
- Available in multiple input and output configurations for site customization
- Simple wiring and MCC/MTC combo panel for easy installation
- Every panel is custom built to fit space requirements
- Full technical support is only a phone call away at no extra charge
- Compatible with any manufacturer's equipment
