INCLUDES THE ULTIMATE

FX experience

Our exclusive line of CleanTouch FX Arches will make your car wash unlike any other. The illuminated arches have a unique design to showcase the FX experience and carry it throughout the tunnel, "WOWING" your customers.

Custom Grand Entry Arch Included!

Give your customers the ultimate foam show

Defend vehicle's surface from the outside elements

Dissipates water immediately, leaving a clean, shiny surface

"Customers come to my wash because we clean cars better than any tunnel in town. There's a night-and-day difference between the clean the MacNeil produces versus the clean they're getting at competitors with lesser-quality equipment."

Brent Garrett, Xtreme Clean Auto Spa, GA

MacNeil Difference

Built to run faster, longer and safer

- Lower cost of ownership
- Fewer breakdowns means less downtime and lower repair costs
- Superior engineering with heavy duty construction
- Rigorously tested components perform consistently
- Incomparable durability and ease of maintenance

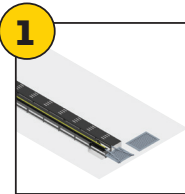

Also Available

Marketing Packages

Vacuum Systems

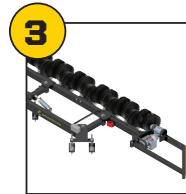

1 XR-1000 Conveyor

- Heavy duty 1/2" steel constructed top deck is tougher and lasts longer
- Open design lets dirt and debris pass through to extend roller life
- 30+ year proven safety & service record.

2 WHEEL RITE TIRE FOAMER

- Chemical tire applicator has easy access for cleaning and maintaining, provides improved foaming & superior show
- Heavy-duty cover

3 WHEEL BOSS

- Patented cam style brush cleans deep into the wheel and rims and eliminates the need for manual prep
- Available with foam or bristle brush

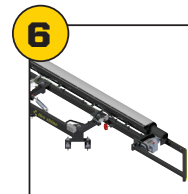

4 Z Frame

- Packs more cleaning power in less space
- Low cleaning pressures ensure safe performance

5 3 NOZZLE WHEEL BLASTER

- High pressure turbo nozzles blast away grime in hard to reach wheel wells
- Following-feature pivot action increases dwell time
- Saves space

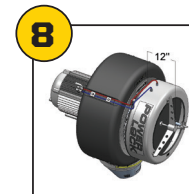

6 GLOSS BOSS TIRE SHINER

- The best tire shiner in the industry with the longest life
- Precise application uses the lowest amount of tire shine and reduces messy sling
- Feather tipped brush never over-saturates

7 TECH 21 DRYING SYSTEM

- Laser focused column of air maximizes flow pattern
- Multiple nozzle offerings hit every inch of the vehicle surface
- Stainless steel reinforced housings for greater safety and less noise

8 POWERLOCKS

- Reduces energy consumption by up to 30%
- Engages to delay or eliminate drying pick-up beds or soft tops
